DOG TALES

Anyone who has been in our showroom, visited our website or follow us on social media will know how much we love our resident brothers Rufus and Finn.

It's hard to believe these guys are three already, only seems like yesterday when we picked them up. You'll meet Rufus in the showroom Monday to Thursday and Finn, the slightly work shy brother, opts for a Saturday shift only. Seems like he's too busy swanning about with his dad Bryan.

BATHROOM TRENDS

Here's what to expect in 2024, from contemporary wetrooms to coloured brassware.

TOP TRENDS
COMING IN
2024

COLOURED FURNITURE

Colour is essential in shaping our enjoyment of a space, we're seeing a shift from white bathrooms towards bright and bold colours especially in bathroom furniture - from dusky pink to ocean blue, we're loving these vibrant hues.

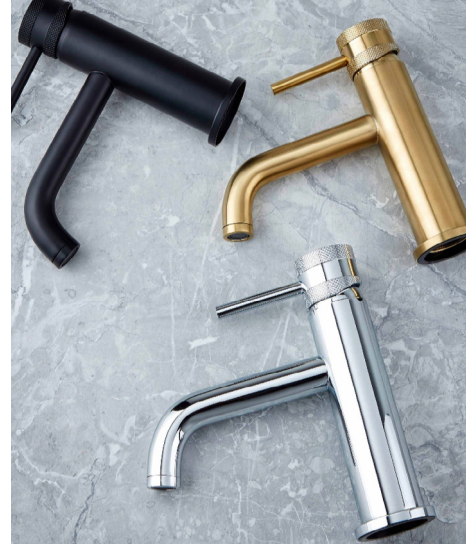

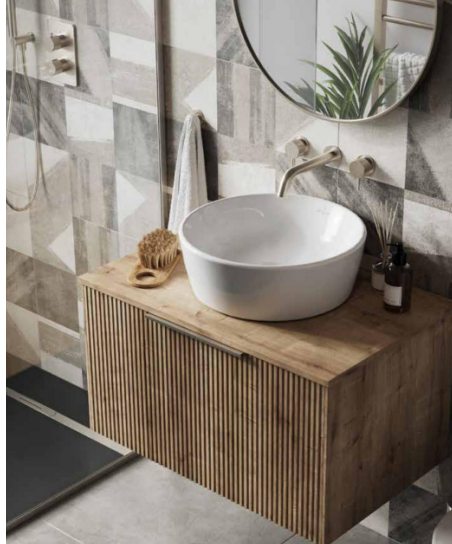

HEATING

Whether you prefer a modern or traditional style our range of beautiful and practical designer radiators and heated towel rails offer you the perfect solution to your bathroom heating needs (or for any room in your home).

BOLD

Colourful and daring wallpaper in a bathroom can really brighten up the space, statement scenic wallpaper brings luxury and drama whilst leafy green prints create calm and freshness and coastal wallpaper evokes a relaxing beach vibe.

WETROOMS

Wetrooms are no longer for the rich and famous! Our new Modular Wet-Floor System enables a walk in shower or wetroom to be installed into any size of bathroom cost effectively. Contemporary wetrooms give the illusion of greater space and the feeling of unadulterated luxury. Ask about a wetroom in your new bathroom today!

FLUTED TEXTURES

Fluted finishes began attracting attention last year and this is a trend that is set to flourish in 2024. Shallow grooves add personality and texture. Fluted shower screens add a much-needed softness to bathrooms, which can otherwise be quite harsh. If you're looking for that extra bit of depth and texture then consider fluted glass for your walk-in screens.

THE FUTURE IS COLOUR

From Nickel to Gun Metal, Champagne Gold to Satin Bronze, Brushed Brass to Matt Black, make a contemporary designer statement in your bathroom with coloured brassware and accessories. Bold, confident and chic styling makes for an ultra-coordinated look for the modern bathroom. Make your bathroom extraordinary.

PROJECT OF THE MONTH

An amazing transformation for our customer in EK. The client gave Bryan free rein to do what he wanted as she had seen his work and read his reviews online.

She was tired of the metro tiling in the shower having to constantly clean the grout and the white painted walls had no redeeming features, lack of storage was also an issue. Bryan suggested a large format 900x450 porcelain tile on all walls and floor with a feature structured tile behind the basin and WC. Matt black fittings in the shower, wetroom screen, basin tap and flush button gave a lovely contrast and the introduction of the Windsor Oak finish on the vanity brought a contemporary feel to the room. The full width niche in the shower area provides somewhere to store showering essentials whilst the recessed LED lighting in warm white creates a lovely warm feel adding depth and intrigue to the niches.

The tiled bulkhead provides another useful ledge and the simple round backlit heated mirror works great with the sit-on bowl. The wall hung pan is a touch of class and also considerably more hygienic than traditional flushing systems. The Matt black ribbon radiator is a design masterpiece and brings elegance and style to this beautifully designed room. Electric underfloor heating will keep this room toasty warm from the feet up – we've got a feeling our client will spend as much time in here than in any other room in the house.
